There wasn't much to enjoy, except for Mr. Fabiano. He was by far the greatest teacher he had ever had. Smart and fun Rachel leaned forward to wash her face with cold water. He brushed his teeth, rinsed his mouth and left his throat. The guttural sound frightened him. There was a hint of her voice in that sound and she hadn't heard her voice in the last six months. A Book Preview: Rachel, having chosen to be mute following the sudden death of a classmate, shares the responsibility with the other sentient selectors who decide not to report that the substitute teacher failed to show up. When the substitute of Mr. Fabiano never shows up and his sixth grade students are alone, they put out to show that they can run the class by themselves. With a bit of ingenuity and careful planning, they could only succeed. But when a fight pushes between Bastian Fauvell and Rachel White over a classmate, Tommy Piumes, who died six months earlier, everything starts to fall apart. Friday, April 28, 9:00 A.M. Reflective and engaging novel ... A story that will last even after closing the book. Booklist, wing, Starred Rich reviews a rich and complex emotional life of a classroom of unasserted students, explodes the day in which an exceptional teacher is absent ... Fletcher creates a testimony of the effectiveness of teaching in his realistic portrait of Mr. Fabiano as a thoughtful and intelligent. A fun, real and often moving novel. Kirkus reviews of the Ralph Fletcher Reading level: Degrees 5-8 What happens in a sixth elementary class when children govern? When the usual and loved teacher is absent, and the deputy does not occur? Students have different possibilities. You could go directly to the Principal office to report the situation. They could take the Lord of the Flies and become wild until they are captured. As one of the students' fathers says, a lawyer, "Without the law there would be total anarchy." Or they could secretly manage the class for a day. After all, they know the routine. The trick is like every teacher knows how to manage the Needs, interests and motivations of each student, especially in such unusually free circumstances. Flying Solo by Ralph Fletcher, the Karen class leader wants to follow the rules, follow the roadmap, following her teacher's favorites. teacher. "Character is how you act when no one is watching." Self-proclaimed Air Force brat Bastian worries about its impending move (its eighth in twelve years), but to its usual teasing and distortion. Jessica, the lawyer's daughter, is against the idea, but agrees to keep her mouth shut and move on. Some of the guys are all to play computer games and clowns all day. Rachel, a "selective move" since classmate Tommy Feathers died unexpectedly six months ago, looks and makes her views known and gestures. The day goes on without too many strokes until the rock ritual. Their absent teacher believes in writing rituals for things that matter, and Bastian walk away, the children agree, is one of those things. As they pass around a special rock chosen by Bastian, each student shares a memory about him. The situation gets ugly when Rachel, overwhelmed by emotion on this day, the six-month anniversary of Tommy's death, jumps into her note to Bastian, reminding him of how cruel it was to the developmentally retarded boy. In fact, Rachel is blamed for her treatment of her classmate. Even though Tommy loved her, he made fun of offers and little kindness, even on the last day he was alive. The experiment in self-government is close to exploding into chaos when level head Karen suggests that everyone spends the last few minutes of class time writing about Tommy. The exercise, not surprisingly, results in some heavy intuitions. Social and Emotional Lessons in Flight Only Bullying can take many forms. In Flying Solo, Bastian bullies the most, dispensing cruel nicknames and exploiting vulnerabilities. But, as another boy points out, even Tommy wasn't a saint. He was known for pushing younger children and making them cry. And, of course, Rachel played a common but sometimes overlooked role in the dynamics of bullying in the classroom disregarding a boy's genuine interest in her. Activities for Flying Solo The mostly off-stage teacher of Flying Solo places a strong emphasis on writing in her class. Often ideas and revelations come out in writing that might not be in a public forum. Teachers can try this exercise with their classes: after reading and discussing the book, students spend 20 minutes writing in magazines about bullying they have experienced, whether as a witness, participant, or victim. If they prefer, they can write a letter (which should not be sent) to someone who has hurt them, or who has hurt them. Another discussion on the exercise will follow, during which the students will have the opportunity to read their writing to the class; the important lesson will come in the writing itself and in the discussions. Some post-writing discussion questions: What have you learned about your attitude bullying when you spent time writing to us? Have you ever felt uncomfortable with the way you and the others are treating someone? What could you do next after? What do you mean to tell someone that hurts your feelings? You think you can say that next time? What do you think of the teacher's belief that "the cat is how you act when nobody looks"? Emily Coulter Book Reviewer Committee for Children
